BE INFORMED

In November, **pro-abortion groups announced a ballot initiative in Nebraska which would enshrine a right to abortion until birth in our state Constitution.** They are in the process of collecting signatures to put this on the 2024 ballot. Nebraska Right to Life is gearing up to launch a campaign to fight the pro-abortion ballot initiative in the coming months.

WHAT EXACTLY DOES THE INITIATIVE SAY?

The petition language allows for **"a fundamental right to abortion until fetal viability, or when needed to protect the life or health of the pregnant patient, without interference from the state or its political subdivisions.** Fetal viability means the point in pregnancy when, in the professional judgment of the patient's treating health care practitioner, there is a significant likelihood of the fetus' sustained survival outside the uterus without the application of extraordinary medical measures."

UNPACK THE LANGUAGE THIS PETITION WILL:

ALLOW FULL TERM ABORTION

Without defining "health," courts have found that it can be based on non-medical factors, including mental, spiritual, financial or familial health. Furthermore, viability is defined as being based solely on the abortionist's judgment.

TAKE AWAY PARENTAL RIGHTS

By using the words "all persons" in the amendment, this will mean parents will not have the ability to consent or even know if their minor daughter seeks an abortion.

ELIMINATE MEDICAL PROTECTION FOR WOMEN

"without interference from the state" puts all of Nebraska's medical safeguards at risk. This includes obtaining informed consent and performing a medical screening, seeing a physician in person or even seeing a medical professional at all.
